Scorpio Electric Officially Launches the X1 Globally, Unveils Two New Futuristic Infinity Concepts at EICMA 2023

The X1 between the Infinity concepts: (left to right) Alpha, X1 and Xi

- *The all-new X1 represents a new era in electric mobility with a performance that thrills*
- *Two new Infinity concepts – Xi and the Alpha, envisioned with passion and desire*

SINGAPORE, 8 November 2023 - Scorpio Electric Pte. Ltd (“Scorpio Electric”), Singapore’s first electric motorcycle manufacturer, is proud to announce the global launch of their highly anticipated electric maxi-scooter, the **Scorpio Electric X1 (“X1”)**, alongside the exciting introduction of two visionary prototypes within their new **Infinity** concepts. This bold new chapter and landmark moment takes centre stage at Esposizione Internazionale Ciclo Motociclo e Accessori (EICMA) exhibition, the world's premier motorcycle exhibition, from 7-12 November 2023 in Milan, Italy.

Commenting on the launch of the two new Infinity concepts, **Joshua Goh, Chief Executive Officer of Scorpio Electric** said, “We are pleased to introduce the X1 alongside our new Infinity concepts named Xi and the Alpha, poised to ignite endless curiosity and wonder. We are taking the next steps towards a transformative future of electric mobility. Uniquely designed, our Infinity concepts embody passion and desire; Ready to capture the minds of youthful enthusiasts who want to take over the electric revolution!”

X1 – Future Unseen

The X1 is named after the most powerful star in the Scorpio constellation. Designed to challenge the boundaries of urban electric mobility that features a futuristic and unique design in a practical maxi-scooter form factor, and is equipped with the latest smart rider technology and connectivity. The X1’s launch marks the culmination of extensive development programmes, which commenced with physical production testing earlier this year and has roots in development efforts dating back to 2019.

Performance

The X1 is capable of accelerating from 0 to 50 km/h in just 3.8 seconds and reaches a top speed of 105 km/h. Its robust powertrain boasts a maximum power output of 10kW, driven by a 72V 5kWh Proprietary battery pack that is air-cooled for maximum endurance and reliability. With an impressive range of up to 200km at 40km/h, the X1 beckons riders to adventure without limits.

Design Language

The X1's dimensions stand at 2,125mm in length, 775mm in width, and 1,212mm in height, offering a balanced size and appeal. Its wheelbase of 1,525mm adds an element of stability while ensuring nimble manoeuvrability through city streets. Weighing in at a mere 185kg, the X1 is a uniquely designed electric maxi-scooter for eco-conscious individuals who want to stand out.

Engineering at its Heart

Built upon a foundation of engineering innovation, the X1 boasts a framework designed for the pursuit of excellence. Together with its single-sided aluminium swingarm, an upside-down front fork and dual-rated shock absorber at the rear bring precision and superior handling to every ride. With X1 Cast Al ENKEI rims, Pirelli tires, and J JUAN brakes featuring a BOSCH 2-Channel ABS system, the X1 sets a new standard for stability and braking performance.

Connectivity & Control

The X1 stands out as a trailblazer in innovation with its advanced headlight technology, complete with adaptive cornering lights. A futuristic 7-inch TFT display transforms your ride into an immersive experience. In addition to its seamless charging capabilities reaching 90% capacity in just 3 hours, the X1 grants unprecedented control at your fingertips – including a controlled steering lock, reverse assist, vehicle lock/unlock, remotely stop charging, seat cover and charger cover remote release, and even vehicle analytics into your ride to fine-tune energy regeneration to your desire.

Commenting on the official launch of the X1, **Dr. Muhammad Taureza, Head of Engineering and Chief Operating Officer** said, "I can't express enough how thrilling and transformative the X1 is for Scorpio Electric. Since our initial development stages, the X1 has undergone numerous refinements, and we are delighted with the results. This is only the beginning, and a testament to the fulfilment of our promise to expand our portfolio and the commencement of production in the months ahead."

Infinity: The Future of Scorpio Electric

Infinity symbolises the boundless potential in every Scorpio Electric motorcycle creation. Envisioned with passion and desire, Infinity is poised to ignite endless curiosity and wonder. This extraordinary line-up comprises two exceptional models - **Xi** and **Alpha**, promising to redefine the very essence of electric motorcycles.

Xi – All About You

(left to right) The Xi in Sunburst Orange, Khaki Swirl and Seafoam Green

Inspired by the X1, the Xi ushers in a new era of light electric mobility. Envisioned as a compact electric city scooter, the Xi will be your companion in your urban adventures. Express yourself with the Xi, featuring three colours of Khaki Swirl, Seafoam Green and Sunburst Orange.

Alpha – King of the Streets

The Alpha

Imagine a machine that defies convention, a two-wheeled marvel that dares to challenge the status quo. The **Alpha** is not bound by the ordinary rules of the road; the Alpha thrives on pushing boundaries, embracing the rebel within and setting its sights on a new horizon. Scorpio Electric presents an all-new vehicle category revolutionising commuting - Street Agile, a fusion of calculated aggression and nimbleness that creates an experience beyond comparison on the streets.

The X1's Manufacturer's Suggested Retail Price (MSRP) for Europe will be €10,000, with deliveries scheduled for Summer 2024. For more information about Scorpio Electric and its innovative electric motorcycles, visit <https://www.scorpioelectric.com>.

Annex A - Features of the Scorpio Electric X1

Performance:

- Top Speed: 105 km/h
- Acceleration: 0-50 km/h in 3.8s
- Max Power: 10kW
- Battery: 72V 5kWh Proprietary Battery Pack
- Range: 200 km at 40 km/h

Dimension:

- L x W x H: 2125mm x 775mm x 1212mm
- Wheelbase: 1525mm
- Kerb Weight: 185 kg
- Storage: Full Face Helmet Capability

Framework:

- Swingarm: Single-sided aluminium
- Front Suspension: Upside-down front fork
- Rear Suspension: Dual Rated Shock Absorber
- Rims: X1 Cast Al ENKEI rims
- Front Tyres: 120/70-15 M/C 56P Pirelli
- Rear Tyres: 140/70-14 M/C 68P Pirelli
- Brakes: J JUAN brakes
- ABS System: BOSCH 2-Channel

Electrical:

- Headlights: LED Headlight with adaptive cornering lights
- HMI Display: 7-inch TFT display
- Battery: Samsung SDI's Lithium Ion Nickel-Cobalt Manganese Cells
- Charge Time: 0-90% in 3h
- Charging Type & Rate: Type 2, 1.5kW AC Charging

Premium Features and Connectivity:

- Magnetic ride by wire throttle technology
- Electronically controlled steering lock
- Reverse assist
- Companion mobile application
 - Vehicle lock/unlock
 - Vehicle summary and analytics
 - Customisable energy regeneration / rider dynamics profiling
 - The ability to remotely stop charging at any moment
 - Seat cover and charger cover remote release

Note: As Scorpio Electric continues to develop and improve their products, these indicative specifications are subject to changes without prior notice. Based on tests conducted in ideal conditions. The actual numbers may vary.
